British Statesman Makes Notable Speech Before Canadian Parliament.

POLITICAL MIRACLE WAS ACCOMPLISHED

Express Firm Conviction That Autocracy Is Doomed To Be Defeated.

OTTAWA, May 28.—A splendid scepe of welcome greeted the Right Hon. A. J. Balfour when he visited parliament this afternoon to deliver his message from the people of the United Kingdom to the Senate and Commons of the Parliament of Candon Ca

Resident of East Edmonton
Mr. Duncan claimed the support o
his hearers on the ground that he wa
a resident of East Edmonton, and habeen so for the last eleven years. H
came there a single man, had marrie
and was bringing up his family there.
He was just one of the "common
herd," as East Edmonton people had
been called. He considered that a
local man was more fitted to represent them and to know their needs
than an outsider.

"It's absurd on the face of it," said
Mayor Henry, calling attention to a
headline that appeared in the opposition paper that day, that read, "35.
000 soldiers disfranchised and allens
given the vote."

"I say," proceeded the mayor, "that
the soldiers have a more direct voice
in the legislature by the law that has
been enacted for their benefit by the
government that if the opposition
scheme were carried out. There will
be thirteen of their representatives in
the house, eleven of their needs better
than any civilian. Is it not better for
them to have these direct representatives than for them to be elected at
large when the soldiers' vote might be
lost owing to being in the minority?
I think it a most unique piece of legislation. Borden himself, when he
came back, said the system adopted by
British Columbia was not feasible. Ar
for the allens stuff, the only ones who
can give the allens the vote is the fedeval government."

Mayor Henry then went on to make

"And the Liberal government is loing more than that," said Mrs. Knell, "We speak of conserving our timber and mineral resources, but the Liberal government, in placing the children's act on the statute book some time ago, is conserving the ilfroft the province."

Last year," said Mrs. Kneil, some 417 children were taken care of and placed in homes by the government under the working of the act.

How the soldiers' interests were going to be represented in the legislature was emphasized by Mrs. Knett. Do you think that these four women won't know how to take care of the soldier man's interests?"

It. S. McKenzie

It. S. McKenzie who was well received, gained the attention and sympathy of the audience by his statements that if they wanted to have successful cities they must also have railway development, and they must have the government which will give them the railroads. He had been up in the north country, and, if they were there, they would hear no grumbling about railroad guarantees. The people were grateful to get the railways to move their grain and stock. He liked to see hones!y, and he would like to see every mile of the railroads. built honestly, and they had to kees the government in that would do so He arged that the people should usifor more railroad extension, and that the C. A. R. McLennan was chairman of the meeting and urged for support of the Liberal candidate on the ground hat he, as a local man, was the best to represent their interests.

BRAZILL ABOUT TO DECLARE WAR

Bill Revoking Neutrality Declaration Passes First Reading.

RIO JANEIRO, May 28.—The Brazillan chamber today passed the first reading of the government measure revoking Brazil's neutrality, in the war between Germany and the United States. The vote was 136 to 3.

The leaders of the principal political factions declared that they would vote for the proposed project because they felt confident that parliament would complete the measure by revoking also in favor of the entente countries the declaration of neutrality, thereby bermitting Brazil to take sides with the entente against Germany. This declaration brought forth enthusiastic applause.

Says Only Miracle Can Save Country From Industrial Ruin.

WORKMEN'S DEMANDS ARE SO ENORMOUS

Munition Factories Output Reduced, and Owners Dare Not Close.

PETROGRAD. May 28, via London, May 29.—The industrial crisis in Russia is so acute that, according to a recent utterance of the minister of finance. M. Shingaroff, only a miracle can save the country from economic ruin. The demands of the workmenwere so enormous, he declared, that it seemed impossible to keep the industrial wheels going for any great length of time.

trial wheels going for any great length of time.

The Socialist ministers at a recent ministerial council said that the only possibility they saw of settling the difficulties was to bring the war to a

possibility they saw of setting they difficulties was to bring the war to a close.

Neither the coalition cabinet nor the newly appointed commission to regulate the difficulties between capital and labor has yet found a way to settle the industrial crisis. The commission is composed 4f the ministers of finance, trade and industry and labor, but since there is a wide divergence of views between the minister of finance and the new Socialist minister of labor it seems probable that this commission will be confronted with the same difficulties that attended previous efforts at reconciliation.

An investigation of the factory conditions in Petrograd leads to the alarming but inevitable conclusion that unless the government soon finds a means of adjusting the present difficulties most of the industrial enterprises working for national defense will be compelled to close within a few months.

Features of Situation

The outstanding features of the laborativation are as follows:

months.

The outstanding features of the labor situation are as follows:

"An investigation shows that virtually the same difficulties prevail in all the big factories in Petrograd, and apparently authenticated reports from Moscow, Dunaets and Oral indicate general disorganization. In many of the factories the demands of the workmen for increased wages are actually greater than the entire profits of the factories under the best conditions of production. The workmen, through their committees, are in virtual command of the factories, and all business has to be submitted to them for approval. Wages in a majority of the factories have already been increased from 10 to 15 per cent, but there has yet been no offset by an advance in prices of the output.

Demands of Workmen

"In one of the works at Petrograd, the workmen recently emanded the immediate payment of 12,000,000 rubles—nominally \$6,800,000—to coveran increase of 15 kopecs per hour for each workman since the beginning of the war. The directors of the organization immediately communicated with the government and asked to placed under voluntary arrest as

ganization immediately communicated with the government and asked to be placed under voluntary arrest as protection against threats of the workmen, which as usual, accompanied the demand. The directors were for two days housed in the ministry of justice. The government finally informed the directors that the matter would be considered and with the demand of the workmen held temporarily in abeyance the directors returned to the factory.

ed to the factory.

Confronted with Bankruptcy

"An eight-hour day has become effective in all factories. According to the estimate of a leading manufacturer, the output of these factories has suffered an average decrease of 40 per cent since the revolution. He explained that all these concerns were confronted with an imminent shortage of raw materials and with bankruptcy.

age of raw materials and with baba-ruptcy.

"Not only have the prices of pro-ducts not met the advance in wages, but payment has been so slow that in-dustries are in urgent need of work-ing capital. The manufacturers find it difficult to borrow money, as the banks naturally are not eager to ex-tend credit to factories which are in control of temporary workmen's comcontrol of temporary workmen's com-mittees. As a result, some of the fac-tories, according to this informant, will be compelled to close within a

month.

Don't Dare Slose

"An ironical feature of the difficulties confronting the employers is the fact that though suffering serious losses, they do not dare to close the establishments, owing to threats of bodily and material vengeance. The power of the workman's committees so far has superceded the authority of the owners. No man in a factory may be dismissed without the consent of the committee. There is no way of enforcing discipline, sald one manufacturer and idleness is prevalent.

GGE Excellent Recention
In their scores of meetings throughout the province Premier Sifton and his colleagues of the cabinet have been accorded an excellent reception at every point. The legislative record of the government seems to have been accepted as almost without a flaw, and men who have been silent on provincial politics for the past five or six years are now rallying to the support of the government and are enthusiastic over the legislation recently passed, which is acknowledged as being admirable for the purpose of building up the province. Prominent among these is E. H. Riley, former member for Gleichen, who in the past has opposed Premier Sifton, but now is giving Candidate Davidson in North Calgary his enthusiastic support. On the other hand, not one Liberal of prominence has left the party in the compaign, according to the leading workers of the well-known workers in the city yesterday, "and were never more sure of triumph. In 1913 he reports were not nearly so promising as they are today, and men who have made a close study of the situation predet a reduction of three or four seats in the strength of the opposition."

This week Premier Sifton is speaking at points in Northern and Central Alberta, intending to finish Saturday night at Wetaskiwin, in preparation for spending the last three days of the campaign in his own constituency of Vermilion. Hon. Chas. Stewart will speak at several points in the north and Friday evening will be at Stony Plain. He also will speak at several points in the north and Friday evening will be at Stony Plain. "Numerous reasons will be given the courts for the setting aside of the award, one of these being that the contractors have been unjustly penalized hundreds of thousands of dollars in regard to matters that do not directly affect work done by them on the parliament buildings," says the Winger Telegram today.

OPPOSITION OF LABOR MEN TO **CONSCRIPTION**

Strong Resolutions of Protest Are Received From All Over.

(By Morning Bulletin Leased Wire)
OTTAWA, May 2r.—While the labor leaders now in Ottawa, are apparently content to remain in an attitude of "Watchfui Waiting" in the interests of the organized workers throughout the Dominion on whose behalf they have recorded a strong protest against the proposed selective conseription measure, there is plenty of activity for scores of messages are coming in from unions in all parts of the country. The messages endorse the stand taken by the legislative council of the Trades and Labor council and contain resolutions of strong protest against the projected compulsory service bill.

To Foliew Debate
Interest now among the labor men here seems to hang upon the submission of the bill to the House of Commons. The debate there will be closely followed. On Friday of this week a convention of labor men, representing eighty international unions, will convene in Ottawa to discuss all war measures which the government has announced or which they have in view.

They had both agreed, he said, that no competent man or woman, who attended to business need have any fear of losing his or her job.

Explains Again

Mr. Ramsey reiterated his previous statements with respect to what he had said at the Credit Men's meeting in Calgary declaring that he had not said that retail merchants should not be given credit but that they should reduce the amount of credit which they gave to their own customers. The fact that Mr. Duncan had admitted that if his book accounts were all paid he would be able to pay his own bills, bore out his statement, the speaker asserted.

Speaking of the discussion at the speaker asserted.

The conservative candidate declared he had merely described the part he had taken in seconding the motion at the board of trade meeting which asked that an opportunity should be given to examine the bill before it was passed. lieve that the British empire, a new experiment in the long history of the world, was going to succeed, even those who, like myself, took a sanguine view of the future of our great empire, must have felt, so loosely was it knit, so vast were the areas that it covered, so improbable that this immense body should be animated by one soul, or that the indirect thrill of a common necessity should go from end to end, as it were, from pole to pose and everywhere meet with a response, that such a dream was difficult, and such an ideal hard to carry into effect."

A Political Miracle.

"It seems to me amos, a political miracle, it was a miracle which courred, and no greater event, in my opinion, has ever nappened in the history of civiliation than the way in which all the co-ordinated democracies, each one conscious of its separate life, each one not less conscious of its common life, worked together, with a uniform spirit of self-sacrifice in the cause in which they celleve, that not merely their own individua-security but the safety of the empire and the progress of civiliation, and inberty itself, were at stake.

"Compare the picture which which i have thus endeavored imperfectly together, each under his own institutions, each according to it in the common and innselfus end, with what is nappening and has happened in the central powers of Europe. At this moment, it and the stories which reach us from every source have the least grain of truct, you have Germany fighting for her own self-centered ends, encounded by a set of states which she has brought under her control, who love her hay, whose interests are resily not identical with hers, but when the German minitary party desires.

"Ever more clearly as the mon

us we are bankrupt indeed. But a now that democracy will not fail us. (Applause.)

"After all, when German militarism aid it down, as it has always laid it down that a democracy is not capable of either a far-sighted policy or a vigorous co-ordinated effort, it made a great blunder. But when democracy lets itself to work, when it really takes the business in hand, I hold the faitmost firmly that it will beat all the autocracies in the world (applause); but it will not beat them without effort, it will not beat them without effort, it will not beat them unless it is prepared to forego temporarily, ti may be, those divisions which, in a sense, are the very life blood of a free, vigorous and rapidly developing community. That is the paradox and the difficulty which lies at the root of democracy.

"Canada's Message

"That Canada is with the allies through all difficulties to a final and triumphant end is the message which you, Mr. Speaker of the house of commons, and you, Mr. Speaker of the senate, have asked me to convey to the motherland. In the truth of that message I firmly believe.

"That question was settled once for all by Germany herself. She made the issue which this country in common with the motherland and all the dominions of the empire and all the allied nations have accepted, and that issue we, in common with the other dominions of the empire and all the allied nations have accepted, and that issue we, in common with the other self-governing nations of our great commonwealth are disposed and determined to maintain until the end."

"Mr. Balfour, I am sure, would be the first to recognize that the warmth of the reception which he has received, especially in this country, is not due alone to his great name and personality, but is associated with an even greater name, the name of England, the champion of liberty, the mother of living nations. England, great at all times, was never greater than at this time, never was greater, I repeat, and because of what? Because England today is the home of civilization and the terror of the enemies of civilization. In Germany today the cry is 'Got Errafe England,' but everywhere else on the seven seast throughout the five continents, in the mansions of the great, and in the cottages of the lowly, there rises every day the fervent and yet more fervent cry 'God Bless England.'

Victory is Sure

We have reason to believe, and believe firmly, that victory, though it may be distant, is as sure as the rising of tomorrow's sun. Evidences are accumulating more and more that after all the supreme battle, the final victory, would be won on the high seas. The strategy of Germany today is to starve England. The British peo have accepted the challenge, and it is the British navy which will win the final victory. I pin my faith not on the warships alone, but equally upon the merchant ships. Our hearts go out to those merchant ships which day in and day out are salling in and out of the ports of England with food that she may continue her life. Every day sees these ships, insufficiently armed, if not defenseless, putting out to sea regerdless of the risk of being sunk by an invisible and cowardly enemy, and whenever one gets torpedoed she goes down to the bottom with her sailors cheering to the last for England. This is the spirit upon which we rely for final victory, because we are confident that victory will be won not merely by cannot shots but by the living soul of man alone." Victory is Sure

JAS. RAMSEY HAS NORWOOD MEETING

(Continued from Page One.)

Mr. Ramsey said that stories had been privately circulated respecting his relations with his help but that the persons who were telling these stories did not dare come out into the open. He invited any person who wished, to come to the store and investigate everything.

wished, to come to the store and investigate everything.

Repeats Charges

The speaker repeated the charges regarding the excessive cost of the McArthur road, adding that not a foot of the E. D. & B. C. line was up to specifications. Every time a train went over the bridge it bumped up six inches and then bumped down six inches on the other side. This showed that sufficient bailfast had not been put on the track and the McArthur interests had pocketed the value of this in addition to the five millions which had been made out of the bonds.

this in addition to the five millions which had been made out of the bonds.

Stanley Charges

Mr. Ramsey said that Hon. J. R. Boyle, in a recent speech, had told the audience that Dr. Stanley's charges against the premier and the attorney general had not been specific and that the premier had promised Dr. Stanley, if he would submit specific charges, to grant him a commission. This statement was denounced as untrue. Mr. Ramsey said that the Stanley charges had been enade specific, and, he believed, had been established as true by the failure of the government to meet them. It was a sign of weakness, declared Mr. Ramsey, that no cabinet minister lared run in the capital city. He again made the assertion that at the Mountain Park meeting, in the Edson constituency, in the interests of Mr. Cross, half the mon present had been drunk. This was on the authority of a minister of the gospel. The attorney general was present but there had been no prosecutions.

Stole Tory Thunder

Nine-tenths of the legislation passed by the Sifton government, said the candidate, had been prepared by the Conservative party, and it had all been stolen. The women had been old by Liberal speakers that they ought to support the government out of gratitude because it had given them he suffrage. But it was not right, Mr. Ramsey thought, for them to do his and to accept at its face value ull else that the government had done releft undone. What the province needed was not legislation, but a good susiness administration, such as the city of Edmonton was getting. He beleved that out of the ranks of the prosition it would be an easy mater to pick eight men who were tronger than the members of the resent government and entrust hem with the administration of the rovernment.

Only one question was asked of the peaker and that was whether he

hem with the administration of the covernment.

Only one question was asked of the peaker and that was whether he hought it right for a man to hold a osition under the federal government and the city at the same time.

"I don't know the man," replied Mr. Ramsey, "I should think he was a grafter of the first order." (Laughter and applayer)

Disfranchisement Of Aliens

The raising of this question in Alberta at the present time is deliberate in its attempt to confuse the public mind, in order that the time-honored flag waving of the Old Tory Party may be seen by the public and perhaps influence a

However, to put the matter right in the public mind, here are the facts:

(1) No "aliens" in the real sense of the word have votes; voters consist of British born and naturalized British subjects.

(2) Alien born people who emigrate to this country are naturalized under The Dominion Naturalization Act by a judge appointed by the Dominion Government.

(3) No alien of an enemy country has been naturalized since the beginning of the war.

(4) Alien born subjects, naturalized previous to the war are bound by their Oath of Allegiance to fulfill their duties as Canadian citizens. If they do not do so, it becomes the duty of the Royal North West Mounted Police to intern them. If they are interned, they do not vote.

The only conclusion then to come to on this question is, that if it is desired to disfranchise all of alien enemy birth or parentage, who have become naturalized Canadian citizens, the House of Commons at Ottawa will have to amend The Naturalization Act.

The three Conservative candidates in Cal-gary, Messrs. Tweedie, Hillocks and Blow, know these facts, of course, but they seek to "draw a herring across the trail" rather than try to secure the necessary legislative action from their own party which is in power at Ottawa, and at the same time endeavor to establish themselves in the minds of the public at patriots of the first magnitude. However, the weatherman, when questioned on the subject, ventured the opinion that there was so much humidity in the atmosphere and so many clouds in the sky that there would be no frost. However, it was altogether too close for comfort. At 2 a.m. the line of the mercury was so near to the fatal 32 degree mark that it was hard to tell the difference and there was a possibility of vegetation in exposed spots getting an unseasonable nipping. Monday was about as cold and disagreeable a spring day as has been experienced here for a long day. The wind blew straight from the north and heavy overcoats, hot beef steaks and coffee and crackling fires in the fireplaces were very much in order.

FREE RIDES FOR RETURNED MEN

Request of Capt. Pinder Has Been Deferred Until it Was Ascertained How Many Men Would be Affected.

It is extremely probable that in the near future that returned soldiers at the military hospital and convalescent the military hospital and convalescent home on the south side will be granted the privilege of boarding the street cars at a point near the hospital and riding one way free of charge. The return journey will be paid for. This is the substance of a request that Capt. Pinder, the military superintendent of the hospital and home, has had before the utilities committee for some time, but the matter has been deferred in order that the committee might be given some idea of the number of men likely to be carried.

Expect Total of 400

Captain Pinder now informs them

Expect Total of 400

Captain Pinder now informs them that the present strength is 155, but now that the convalescent home had been taken over it was expected that the strength would rapidly increase and that when both places were filled there would be 160 in the hospital and 240 at the convalescent home, making a total of 400. His request is for the men to get on the cars on the south side of the high level bridge at the end of 85th avenue, at the waiting room, and not for the return trip. This would be similar to the system carried out at Calgary, where the men were given free transportation to any point on the system from the Ogden Road Military Convalescent Hospital, but paid their own fares on boarding the cars at any other rejet. fares on boarding the cars at any

Committee in Favor

Members of the utilities committee are in favor of the men being given the one-way transportation, and it is likely that a recommendation will go from the next meeting (which will be held shortly) to council, to the effect that the privilege should be given.

It is contended that the men are deserving of this mark of recognition on the part of the city, also that the financial loss will not be appreciable as the service is running the whole time and the men would be paying fares for the return journey.

HAS FAMILY IN CITY.

In a report of the wounding of Pte. Fred Thornber of Edmonton, who has been awarded the Military Medal for distinguished conduct at the front, it was stated that his only relative in the city was a sister. Miss Thornber of the Regal Fruit store. This was an error as the gallant young soldier's father and mother, Mr and Mrs. J. W. Thornber, have resided in Edmonton for a number of years, Mr. Thornber being a car inspector on the C.N.R., the same system on which Pte. Thornber was a car checker before enlisting in August, 1918. Uncles and aunts in the city are Mr. and Mrs. Herbert Thornber of 101st street, and Mr. and Mrs. Alfred Thornber of 112th street.

WOULD LIMIT AUTOS TO SIX MILES AN HOUR

City Business Man" Writes Strong Letter of Protest to Mayor Henry

"Uniess action is taken there will be a one big smash ,and that may then make the authorities get busy," save "A City Business Man" in a letter to Mayor Henry, in which he calls atten-

Mayor Henry, in which he calls attention to the danger from auto speeding which soes on in the city.

He says: "I have seen autos making 15 to 30 miles an hour on Jasper and the other main streets. Also I have noticed on busy days and nights eight to inteen cars hed up at crossings by people boarding street cars, and when the cars get in motion the autos all race to get ahead before they reach the next corner, where perhaps another dozen passengers are waiting the car."

As a remedy "A City Business Man,"

car."
As a remedy "A City Business Man," proposes that the speed of all autos should be reduced to six miles per hour on Jasper avenue between Namayo avenue and 109th street and from Jasper to the C.N.R. station on 101st street. Let this be strictly enforced and cut out the holding up of autos when people were boarding street cars.

autos when people were boardingstreet cars.

He also suggests that no autos be allowed to travel over 10 miles per hour within the city limits, as wople were involved in danger more and more every day because of the looseness of the law regarding the speed limit.

Mrs. F. G. Hay Roe was made a presentation by the Women's Civic Ciub at a meeting held in the Hudsonia on Monday afternoon. Mrs. Clyde MacDonaid read an appropriate address, which was later given to Mrs. Roe, daintily tied with pink ribbons and Mrs. Clarke made the presentation of a souvenir spoon of Edmonton. as a slight acknowledgment of the valued services of Mrs. Roe as a member. There was not a large attendance, but considerable business was transacted, and reports were read on questions issued at a previous meeting. Mrs. McLaclian, the president Mrs. Burbeck, the secretary, and Mrs. Freeman, the treasurer, were in their respective places and the regular business proceeded.

Mr. Jams Ramsey had been approached for a previous meetiness proceeded.

Copies of the Legs Status of Women of Alberta to those who had not already received one A question was asked about "the cos of public health to the city—who spends it?" It was answered by Mrs. Burbeck, who submitted the following comparative statement:

Health department city of Edmon ton: Expenditure—Salaries, \$14, 100.05; printing, stationery, postage clephones, etc., \$367.85; transportation, \$17.186; purchase of ash and gar perses, \$14.76; cow and dairy inspection, \$2.25; demeteries, \$1.50.35, total, \$1,665,000; net expenditure \$15.466.83.

Another question was about the water works department, which waitnessered by Mrs. Holman in the following report:

water works department, which water unswered by Mrs. Holman in the following report:

To the President and Ladies of the Civic Club:

Our city water, as you know, comefrom the Saskatchewan River below 5th street, and is taken from the rivethrough two 86-inch intake pipes by the low left pumps, which takes it into the sedimentation basin, wherewhen it is very muddy, it is mixe with alum, which really collects the mud into lumps again, which are taken out and the water then flow through a twenty-inch pipe to the twelve filtering tanks, which have a capacity of one-half million gallon and are filled with gravel in the bottom, a finer gravel or a very coarse sand in the centre, and a beautiful fine white sand on top, through which our water is filtered at a rate of 6-00,000 gallons every twenty-four hours into what is called the clear water basin, thence by gravity if flows into the suction flumes of the high lift pumps, where samples are taken and different portions of liquichlorine are added to sterilize it. Now here I will give you a few reports of the analysis of the water during the last month and the amount of bacteria found on each examination May 14—Bacteria river, 152; per c. c. treated, 15; chlorine used, 2 bbls. May 19—Bacteria river, 152; per c. c. treated, 15; chlorine used, 2 bbls. Now, those were really the workays this year, so you will readily se that our water is really very purform this suction flume the high lifpumps force the water all through thone hundred and sixty-four and fraction miles of our city mains, thereby giving us one of the greatest comforts of civilization, not forgetting the fire hydrants all over our city, whice enable our fire department to be successed.

Here I might add-a word of explanation as to why we sometimes have muddy water on certain days in som sections and not in others. It is cauled by the fire department the rounsum of \$40,000 for water used each year, heavy pressure in those partitual rections, and not in others. It is cauled by the fire department the pays the

ular sections, and thereby having stirred up the mud in the pipes. Occurse the department tries to overcome that as much as possible by flushing quite frequently.

Now, on the waterworks departments of there are seventy members. Opecember 31, 1915, there was a deficit of \$62,447.18; on December 31, 1916, there was a net surplus of \$12,529.38.

ficit of \$62,447.18; on December 31916, there was a net surplus of \$1252.53.

The wells in the outlying district are under control of the health department, and Dr. Whitelaw, who hat two inspectors, namely, Mr. Grahmand Mr. Hyatt.. This department when any epidemic of disease occurin an outlying district, has the wate from the wells examined at the university, and if they find bacteria that are sufficient to cause the troubtiney place placards on the wells an order the people not to use them But Dr. Whitlaw tells me that they have a great deal of trouble in getting the people to obey orders, and sometimes they resort to putting potassium permanganate into the water, which makes a pink shade and will in some cases frighten the people, but sometimes they have to resort to filling in the wells. These districts are covered by the thirteen men with water wagons who are licensed by the city which deliver water at the rate of a barrels for one dollar. These peoplius now are asking for hydrants, but at present the commissioners have given no decision on the matter, a they feel that if the hydrants arranted it will be longer than necessary before they will connect up with the sewerage system, which is really every beneficial and necessary to the community.

What the Advance Man says.

"JOAN THE WOMAN" GREATER THAN "THE BIRTH OF NATION

(By Balletin Dramatic Critic)

"Greater than the 'Birth of a Nation." That is a statement which can very truthfully be made, and without fear of any serious contradiction, regarding "Joan the Woman," the wonderful historical picture which was shown at the Empire Theatre yesterday, and has the boards for the remainder of the week. In making such a comparison it is only possible bebecause both deal with great historical facts, one with the history of France and the other with the history of France and the other with the history of the United States. In "Joan the Woman," the period in French mistory is shown when that country, on verge of ruin, was aroused to action through the heroic work of a mere girl, who, inspired by "volces" from neaven, undertook the military leadership of the people, and later was burned at the stake through the influence of a corrupt Catholic bishop and the ingratitude of the king she had placed upon the throne, as well as of the people whom she had delivered.

The picture, with a theme which stirs, based upon historical truth, deals with an age that is past and an age that is difficult to understand, and so it may not have the immediate success of the play which dealt with American history. Gunpowder had just been invented, and the primitive way in which it was used did amuse some of the returned soldiers who were in the audience on Monday afternoon. And then the picture makes Joan of Arc human. History books in barren style leave altogether too indifinite an impression of the leader of the French people in the fifteenth century, but, as the title suggests, she was Joan of Arc did mapire to indifinite an impression of the leader of the French people in the fifteenth century, but, as the title suggests, she was Joan of Arc did mapire to indifinite an impression of the leader of the French people in the fifteenth century, but, as the title suggests, she was Joan of Arc did inspire the men of France.

The hand to hand fighting, the fall-from walls, tournament riding, show the kend of an acr (By Bulletin Dramatic Critic)

The hand to hand fighting, the falls

France.

The hand to hand fighting, the fallfrom wals, tournament riding, show
the hand of an artist, or rather of a
thousand artists. Then there is the
shotography which is not the least
of the great features of the drama.
The press agent of the theatre would
do a public favor if he would state
truthfully how much it did cost for
the production of the picture asid
from the wages and salaries. The
settings are apparently made in the
great out-of-doors. With careful his
torical regard the minute details of
costume and custom are preserved.
There are thousands of men and women in some of the big scenes and
every detail of dress and equipment
of the most humble is carefully attended to.

And last, but perhaps the most important feature of the production is
the orchestra. The picture would fall
far short of being a great success were
ty pieces plays to the picture. The
careful shadings and fine touches
bring the audience into sympathy
with the action of the picture. However, the musical score, or the playing of it, did not seem so impressive
as that of "The Birth of a Nation."

SHAKESPEARE WOULD NOT FEEL AT HOME

By Bulletin Dramatic Critic.

If the late William Shakespears had sat in a box at the Pantages theared Monday and witnessed the performance of the piece named "Miss Hamlet" he would doubtiess have rubbed his intellectual dome until it was pink and wondered whether he was dreaming, hypnotized or mentally disordered. Marty Brook's "Musical Comedy Travesty" is one of the biggest jottes that has ever come to town. It, is elever, and, what is more, has clever people in it. Conceived of all the action of "Hamlet," the sayings and dongs of the principal personages of the pink may be used to the piay mixed up in one grand hodge podge of nonense, interiarded plentifully with siang and beautified with an array of beauteous damsels, who dance and sing at intervals in a style such as the court of Elsinore never to much as dreamed of then you will

much as the court of Elishore never so much as dreamed of, then you will nave it.

Pauline Barri was an effective Hamlet, but praise must be given to Frank T. Don as the King, Sadie Bunks as the Queen, and William linnell as Pelonius. To judge from an iccasional remark, and his condition on his final appearance, there is no prohibition law in the region customarily inhabited by the Ghost, and the costumes of the incidental ladies indicated that the climate of Denmark must be considerably warmer than it was in Hamlet's time, in fact that it verges on the tropical.

Anyway, if you want to forget the war, and the high cost of living, and the late spring and polities for an hour, spend the time in looking at "Miss Hamlet." It will do the trick There are other good things on the bill. The playlet, "A Truthful Liar. by Fred Beeman and Clifford Irvine was done very well indeed by Haary Manners, Jay Collins and Miss Shaw It went like the crack of a whip from start to finish. Howard, Kibel and Herbert's comedy trio produced some funny business that was ashade too long and threatened to grow tedious toward the end. Klotz and Nash are a clever song and dance team with nothing amateurish about their act and Swain's trained cat and rat outfit produced genuine joy in the heart of the klddies

The Pantagescope presented the always interesting current events, dealing chiefly with the war in the United States, and a comedy film. All in all

ways interesting current events, dealing chiefly with the war in the Uniter States, and a comedy film. All in at the show is a well balanced and attractive one.

Photoplays

on the screen in Local Picture
Houses

MAJESTY—Violet Mersereau appears to her best advantage in the Bluebird photoplay, "Busan's Gentleman," which was shown at the Majesty theatre yesterday for the first time and is also being shown today. This pretty and immensely popular young star, plays a dual role in this play, and each role brings out and requires special character work for which Miss Mersereau's talents are best fitted. She plays the part of mother and daughter. As the mether, Nancy Croyden, of Croyden Hall, she is the woman of training and breeding of an old English family, but possessed of a little "wild" stresk which leads her into a love affair which eventually results in her elopement and moving to New York, whore her daughter is born. The daughter, brought up in the New York tenement quarters, inherits her mother's fine temperament, but her environment is so different that to niey the part Miss Mersereau must use her histrionic taleuts to a greater degree than usual. Au interesting leve story is woven into the rolot in which Nancy Flynn is restored to Croyden Hall to take the place of her mother as beiress to the estate.

Rossington, Alberta, May 28th—
(Special).—Further evidence that
Dodd's have no equal as a family medicine is furnished by Mrs. H. K.
Hewer, wife of a well-known settler
living near here. Mrs. Hewer, her
husband and her little girl, were all
suffering from sore back and kidney
troubles. Dodd's Kidney Pills proved
to be the remedy they all needed.

"My husband says Dodd's Kidney
Pills have done him more good than
eny other medicine he has ever used,"
Mrs. Hewer states. "I, myself, was
suffering greatly with my kidneys and
I feel ever so much better since using
Dodd's Kidney Pills. My little sirl,
eleven years old, was also suffering
from sore back, and I gave them to
her with splendid results."

Metro Wonder-drams will be shown at the Majesty, featuring Emily Stevens, in "The Wager" a story of the other side of life that that of which the majority are familiar.

DREAMLAND—Irene Fenwick, who is starred in "The Child of Destiny," the elaborate Metro-Columbia five part screen production, which will be presented here at Dreamland for the ast time today, is surrounded by a notable supporting cast. One of the prominent roles is essayed by Mme Ganne Waiska, the renowned Polish singer who is featured with the Chicago opera company. It will mark Mme. Walska's debut in the ellent drama, as she consented to take the part while in New York under a throat specialist. Mme Waiska is a talented dramatic actrees, possessing rare beauty and a wonderful figure, and admirably suived for the role of the adventuress in "The Child of Destiny." Others in the cast include Robert Elliott, for several years one of the best leading men on Broadway; Roy Cair, a star in many productions on the Pacific Coast; Martin J. Faust, William Davidson, R. A. Bresse, Roy Applegate, William Yearsuce, Ellisabeth Le Roy, and other well known stage and screen artists.

MONARCH—Marguerife Clark, that dainty little actress of the screen who is a universal favorite throughout the civilized world, is seen at the Monarch this week in her latest release. "The Valentine Girl," which is a distinctly high class production and ranks smeng Paramount's best releases of recent date. The piece is full of dainty charm and some fine double exposure work is shown together with many beautiful exteriors and sets which are beyond the ordinary for richmess.

with many beautiful exteriors and sets which are beyond the ordinary for richness.

In essaying the role of a lonesome little girl, transplanted into a home of wealth, and growing up into a beautiful young woman, Miss Clark has struck a new and pleasing note in her impersonations. Frank Losee, her chief support, plays perfectly the part of a professional gambler with the instincts of a gentleman and an undeveloped mine of father-love.

All those who see "The Valentine Girl" will like it as much for the strength of the capable surrounding cast as for the inimitable way in which Miss Clark personates first a little girl and then a young woman. A hetter vehicle in the way of light, clean drama is seldom seen than this picture.

way of light, clean drama is seidom seen than this picture.

EMPRESS—Madame Sarah Bernhadt, a powerful story, and an almost inspired direction and acting of their roles by the French artists in the cast, compel intercest in "Mother sof France," the distinguished photoplay photographed amid the actual scenes of war under the auspices of the French government. The film was shown to packed houses at the Empress theatre yesterday and the attraction will be on the acreen all week. Its theme, a message from the mothers of France to the methers of Canada, attracted many to the theatre, and there was a big percentage of women in the audience, and the applause which burit ent at frequent intervals was in decided contrast to the quiet, tense and dramatic moments of what is quite the finess photoplay ever seen in an Edmonton theatre.

"Mothers of France' is not a picture solely of bursting shelts and melo-dramatic thrills with some flimsy thread of a story to hold it together, but it is first of all a tensely dramatic subject, using the locale and the hardshes of the war in a manner to make a wonderful and inspiring atmosphere and creats a feeling and an impression that one will never forget. It is a string picture. Most of it is seen through a mist of tears because it reaches down to the simple emotions, striced up by human suffering, and up to the greater emotions which are the heritage of a courageous people. "Mothers of France" will make better soldlers of the men and better mothers of the women who see it.

Why should a line so badly needed be built, when the money has n secured with which to build

Government for not arbitrar extending its term of officeincidentally his own term as der of the Opposition. At the ne time he declares the Gov ment is so extravagant and in petent that the public inter require that it should be ned out of office. On his own fession Mr. Michener was anx to compromise with extrava ce and incompetence for the e of two or three years' salary leader of the Opposition. His rits is a matter for difference opinion. His declaration of own willingness to "sell out" st be taken as correct.

Ir. Michener condemns the Sif

remier Sifton is authority for statement that the Province ld sell out its telephone system ay at a profit of two million lars. That finally disposes, so as reasonable people are conned, of the argument that the tem is not being well managed. managed enterprises cannot sold in this day of financial de ssion on any such profitable ms as that. Private investors times like these do not throw ney away in excessive prices run-down telephone systems Premier's declaration is coneing evidence that the system well managed and that its fuis so promising as to make it object of desire on the part of ple looking for dividends. On counts the public are due for gratulation, and the Governat for commendation.

he proposal to load up the vincial telephone system with king fund charges which would ke it necessary to increase the es to rural and urban subbers is not a matter of direct cern to the people living in monton, as the city owns the elsewhere in the Province the phone facilities are supplied ned and operated by the Gov ment. Whether the subscrib are content to maintain the tem in first-class condition and it the cost of it as a permanent estment, or whether they pro to be charged double in order both pay for the system and ntain its efficiency is one of issues to be decided at the If the Opposition should they are pledged to impose double charges upon the users

he Provincial system.

The pretense that the Provincial elections were "sprung" on an unsuspecting Opposition is sheer hypocrisy. As a matter of fact they have been looking for an election for upwards of a year, and preparing for one longer than that. Their organizers have been working along the side-lines for a year, and both their mem-bers of the House and their newspapers have been carrying on what they evidently thought was an election campaign and in-tended to be one. If they have not by this time got the electors to apprehend what they stand for it is useless to supose they would ever be able to divulge that information.

Taken as they have developed thus far the Opposition campaign tactics are to seare the women off the platform and frighten naturalized citizens away from the polls. That "fine old spirit" of Tory intolerance has, it seems, been imported into Alberta, has found congenial soil in the reactionary temperament of the Opposition, and is bringing forth its usual fruitage of intimidation. After a while we may expect from the dominating element in Mr Michener's following a proposal that anyone suspected of cherishng critical sentiments toward the loctrine of Divine right shall be automatically muzzled and dis-

Nobody has yet told us how Mr. Michener proposes to open up the north country to settlement without either guaranteeing the bonds of railway companies or borrowblamed because the extension of the money and building the lines as public undertakings. When the Peace River road was minion Ministers have either under consideration in the House the Opposition leader rallied his dit of their C. N. R. system, or followers in direct and uncompromising hostility to the project, even the member for Peace River being dragooned into voting against the proposed extension of railway facilities to his constituents. Neither in the House nor out of it has Mr. Michener offered any alternative policy for ck the construction of this line getting railways constructed order to bring discredit upon through the great vacant stretches Provincial Government, but of the Northland. On the other and, he denounces alike the liability assumed in guaranteeing railway bonds and the increase of the public debt. The unavoidable conclusion is that he does not include further railway construcion in Northern Alberta in his program, if he has any program, that his success at the polls would mean the prompt and definite stoppage of he process of opening up hat great region to profitable ettlement and the generation of

The Journal criticizes the man-

gement of the Provincial telehone system because the depart ent does not lay aside each year proportionate amount of money o meet the debentures when they hall fall due, as is done in the owned by the city. The distinction is correct. The two systems are managed on absolutely different lines as regards finance. In the case of the city the system is maintained at the standard of efficiency out of earnings, and there is also set aside out of earnings a sum to meet the debentures when these mature. That is, the users of the system are not only paying to maintain the system, but are paying the cost of it as well. When the debentures are paid off the succeeding generation will be presented with a telephone system that has been both paid for and maintained in efficiency by the present users. That is one way of financing an enterprise of the kind, the very conservative method, an unquestionably safe method, but one which imposes a double burden upon the present users of the system. In the case of the Province the policy was adopted that the users of the ystem should be asked only to teep it in a state of efficiency; hat as the future users would be given a telephone system worth he money that had been put into t, it was not fair that the present users should be asked to both pay for the system and pay for the lost of up-keep. The contention hat they should be made to pay or both is a matter of difference f opinion. The point is that if inking funds were set aside to neet the debentures, and the upceep of the system also taken care f, the rates charged would have

Religious Freedom Under Union Jack The Comment which matters Catholic missions under the Br Catholic missions under the British flag is that brought by the missionaries themselves; and these say: "Leave us under England, for it is there we get liberty." One cannot but recall the saying—for the absolute accuracy of which your correspondent can vouell—of Cardinal Vives y Tuto, O.F.M.C. Spaniard, and reckoned of the most "intransigent," that all good Catholics should pray for the prosperity of the British Empire, for with it were bound up the prospects of the Catholic church. The ideals under which the British Empire spread meant the safeguarding of Catholic missionary enterprise and the Catholic religion in he wake of its advance. The actual cocasion for the words was the abolition of the unhappy words in the oath on the accession of King George.

AUDITORS' REPORT TO SHAREHOLDERS

We have compared the above Balance Sheet with the books and accounts at the Chief Office of Imperial Bank of Canada and with the certified returns received from its Branches, and after checking the cash and verifying the securities at the Chief Office and certain of the principal Branches, on 30th April, 1917. We certify that in our opinion such Balance Sheets exhibit a true and correct view of the Bank affairs by the books of the Bank.

In addition to the examinations mentioned, the cash and securities at the Chief Office and certain of the principal Branches were checked and verified by us during the year, and found to be in accord with the books of the Bank.

All information and explanations required have been given to us, and all transactions of the Bank which have come under our notice have in our opinion been within the powers of the Bank.

Calgary Management Took Stand Because Organization Does Not Sing Anthem

Calgary, May 28—Because it is not the custom of the People's Forum, an organization which meets every Sunday afternoon to discuss political and social questions, to sing "God Save the King," the management of the Empress theatre refused to allow yesterday's meeting to be held in that building.

day's meeting to be held in that building.

Public attention had been dierected to the forum by an announcement recently that it was proposed to sing "God Save the People," instead of the national anthem.

On being notified on Satur lay night that the Empress theatre would not be available the forum executive made arrangements to hold the meeting in the Grand theatre. "O Canada," and "God Save Our Splendid Men." were sung, but not the national anthem. There was no disturbance.

ADVERTISEMENT

Tory Campaign Lies Exposed

The anonymous advertisements which appeared in different newspapers recently, notably the "Edmonton Bulletin" and the "Edmonton Journal" entitled "A LIBERAL EDUCATION" is on a par with most anonymous communications, to which most people pay very little attention, but in view of the absolute falsehoods and misleading statements contained therein, it has been thought advisable to give the public the facts.

The statement is made in the advertisement that it is written by a non-partisan who is a "Win-the-War-Party Man" and that it was published at his own expense, but, as it contains the same statements that have been made by the LEADER OF THE OPPOSITION for years and almost in the same language, it is fair to assume that it was written under the supervision of that gentleman himself. This being the case, the Leader of the Opposition must realise that in order to have his statements read by the public, and, perhaps, partially believed by people who do not know him, it is necessary that they be anonymous.

.The same pernicious principle followed in the method of publishing this statement is carried out throughout its construction, the effect being that where direct false figures are not given, misleading comparisons are made, so that a wrong impression may be created in the minds of the public.

FALSE STATEMENTS

CORRECT FIGURES

Population of Alberta 496,117 Gross Public Debt \$29,000,200

Debt per Capita \$58

Increase in Debt since 1910...\$11,500,000

FIGURES USED

Instead of \$92,910,450

Instead of\$249.14

Instead of \$64,000,000

NOTE-The gross public debt of Alberta is less than the gross debt of the City of Edmonton. The figures used by the anonymous writer, \$92,910,450.00. included authorized loans, the money for which has never been borrowed: all authorized railway guarantees, many of which have never been given: and, the University of Alberta loan, guaranteed by the Province, but which is secured on the University property.

STATEME SLEADING

In addition to the direct false statements contained in the advertisement, as shown above, the balance of the advertisement is made up of misleading statements derived from unfair comparisons, some of which are set out below:

(1) COST OF CIVIL GOVERNMENT.

Advantage is deliberately taken of the fact that there is lack of uniformity between the various Canadian Provinces in their method of keeping Public Accounts. Alberta, practically all administration expense is charged to Civil Government, which is the correct procedure. With other Governments, this is not the case, making comparisons of the cost of Civil Government in Alberta with the other provinces misleading and creating a false impression in the minds of people who might read the advertisement. This is, of course, the deliberate intention of the anonymous writer. A concrete example of this misleading comparison is given below:

In Saskatchewan the cost of administration in The Insurance Act, The Corporations Taxation Act, The Moving Picture Act, and The Vehicles Act, is not included in the cost of Civil Government, but is handled in a separate vote called "Administration of Services." In Alberta the cost of administration of the above Acts is charged to Civil Government. This is just one example among many that can be given in practically every comparison made.

The crowning piece of misrepresentation and misleading comparison, which just about amounts to deliberate lying, is given in taking the expense of administration, in several Departments of the Government, where he subtracts the total for the year 1910 from the total for the year 1915, and calls the balance "Increase Second Year of the War.

Take, for instance, where this anonymous author shows "Increase second year of war \$65,416.59" in salaries of the Edmonton Land Titles Office. The anonymous writer's intention is, of course, apparent—that the public are to believe by his manipulation of figures that the increase was extravagance during the second year of the War. This was not the case, however, but absolutely the reverse. The facts are:

1914-Salaries (before the war) \$136,639.60 1915—Salaries (war period) 102,975.42 33,664.18 Salaries (war period)

It is said "Figures do not lie," but, "You can lie with Surely this anonymous writer can, because he had all this information before him when he wrote his statement, and why did he not give all the figures unless he wanted to create a false impression by his manipu-

(2) TRAVELLING EXPENSES OF CABINET MINISTERS.

In making comparisons under this heading with the other Provinces, the anonymous writer knew that the Province of Alberta is farther away from the financial and business centres of Canada and the United States, with the exception of the Province of British Columbia, than any of the other Canadian Provinces. You will notice that the anonymous writer does not use British Columbia for his comparisons. He also knew that as a result of this longer distance, greater time and greater expense is necessary in trips required for the securing of finances, in attending Inter-Provincial Conferences and many other matters of business in the East in which the Province of Alberta is vitally interested. He knows these things -he does not mention them-he is still engaged in "lying with figures."

An item of special interest is apparent in dealing with comparison of Alberta travelling expenses with Province of Ontario. Ontario owns a railway, the Temiskaming and Northern Ontario Railway. The Railway Company owns and operates a private car. Result: Ontario Cabinet Ministers travel in a private car, the expense of which is charged to the Railway, so that it is quite apparent why Cabinet Ministers of Ontario do not have large travelling expenses charged against them in the Public Accounts of that Province.

What the Liberal Govt. Has Done for Patriotic Purposes

The advertisement also makes a special effort to appeal to soldiers and their dependents through the supposed extravagance of the present Liberal Government. The anonymous writer takes good care not to tell the soldiers that included in the supposed extravagance, were the following amounts for real Patriotic Work:

15,000.00

15,000.00

1. The first food donation from the Dominion of Canada to Great Britain was from Alberta: 500,000 Bushels of Oats, costing

\$275,000.00 of Flour Donations to various Belgian Relief Funds,

Recruiting and Returned Soldiers Funds.. In order that all donations to the Patriotic Fund shall go wholly to the soldiers' wives and children, Alberta pays the expense of administration of that Fund within the Province. Cost to the end of 1916

5. Alberta's civil servants, who our anonymous author says "roll in luxury" have through the action of the Liberal Government

donated to the Patriotic Fund the sum of . . The amount of a money vote put through at the last Session of the Legislature, initiated by the Liberal Government, to pay the expense of administration of the Patriotic Fund, the expenses of the Military Hospitals Commission and various other Patriotic purposes within the Province

279,239.96

11,500.00

75,000.00

And then he mentions "the specious hiving of the soldiers' votes," but he does not tell you that the next

Legislative Assombly of Alberta will have 18 members on the Rolls, who have enlisted for active service overseas. Legislation was initiated by the Liberal Government to return to the Legislative Assembly by acclama-tion the 12 members who had enlisted. One has since been killed in action, Lieut. Jos. A. Stauffer, Liberal Member for Didsbury. In addition to these, there are two members to be nominated and elected by Alberta's soldiers in France and England. It has been admitted by the Leader of the Conservative Party in Canada, Sir Robert L. Borden, that the taking of the soldiers' votes in France and England for candidates throughout the various constituencies in Canada has been proved to be absolutely impracticable, but by this method, without interference of any kind from outside, the soldiers nominate and choose two men from among themselves to represent them in the Legislative Assembly of Alberta.

The only conclusion that a fair-minded man or woman can come to, after getting the facts in connection with this anonymous author's advertisement is that, if he is, as he says, a "patriot" and "A Win-the-War-Party Man," his energies and his money would be a good deal better spent in honest patriotic work such as the Patriotic Fund or the Red Cross Fund, rather than indulging in false and misleading statements, known to be such by him, for political gain, under a mask of "Patrictism"

EXPECT MORE AIR ATTACKS ON ENGLAND

London Papers Regard Friday's Raid as Forerunner to Others on Large Scale

London, May 28—The newspapers in their editorials today deal with Friday's air raid. They say that not only did it result in the greatest number of casualties of any raid yet made, but they consider it as a nrobable foremner of many similar raids which in the course of time will be multiplied to the extent of amounting to an invasion.

to the extent of amounting to an invasion.

The perpetually recurring controversy concerning reprisals has been reawakened by the raid, the pro-reprisalists demanding attacks on German towns. While the anti-reprisalists are strongly opposed to this, there is a noteworthy absence of severe criticism of the invaders not being attacked sooner and more strongly. It is generally recomized that the fighting front has the first call on airmen, where they are indispensable and never too numerous.

Attacks on Fishing Fleets Change Feeling in South and Southwest of Ireland

London, May 28.—According to stories in the morning papers there has been a complete revulsion of feeling toward the war in the south and southwest of Ireland as a consequence of the recent attacks by German submarines on Irish fishing fleets. A number of fishing boats have been sunk and the victims of one attack say that Germans told them that they had already sunk the Kinsale and

England. They also threatened to shell villages on the coast.

CHICAGO GRAIN

CHICAGO May 28. Predictions that the 1017 corn crop would break all records for magnitude of yield sout prices for that cereal whirling downarase today. There was a general rush to unlead holdings. Prices in some cases showed a drop of six cents a hushel. Opening quotations, which varied from the same as Ratuiday's finish to \$\frac{1}{2}\text{conts}\$ a hushel. Opening quotations, which varied from the same as Ratuiday's finish to \$\frac{1}{2}\text{conts}\$ a hushel. Opening quotations, which varied from the same as Ratuiday's finish to \$\frac{1}{2}\text{conts}\$ down, were followed by a brick rally, but then a repid fall that carried July to 141, as against 137 at the crest of the early upturn.

Wheat developed a little more activity than has been the rule of late. Optimism is regard to the new rrop outfook, however, tended to make prices seak. Heads advices were that less apprehension was felt in Great Britain regarding supplies. After opening to the lower, with July at 207 to 209 and September at 183, the market dropped an streme 6c and then recovered to a moderate extent.

Outs were unsettled by the weakness of other grain. Covering on the part of shorts, though, prevented any radical breaks in values.

Liquidation sales in provisions were heavy, influenced by the bearier action of corn. Lard prices, sepecially, gave way.

Later a big decrease in the United States visible supply total brought out a further builtish reaction. The close was unsettled at 1 to 6c net decline, with July at 205 and September at 183.

IMPERIAL BANK IN GOOD SHAPE Auction

Annual Report Very Gratifying To Shareholders And Depositors.

The annual meeting of the Imperial Bank of Canada, was held in Toronto on May 23rd, and a detailed report appears in another column of today's issue. It shows this institution to be in a very satisfactory condition. The operation for last year, as reported in the annual statement, resulted in a net profit of \$1,122,815.67, which with the balance to the credit of this account carried forward from the provious year, and amounting to \$1,089,656.29, makes a total credit on the profit and loss accounts of over \$2,200.000.00.

During the year, sloven new branches have been opened, two in Alberta, namely at New Norway and Peace River. The bank's branches how number 128, and are located all over the Dominion, so that the head office of the institution, is in direct contact with business conditions prevailing in all portions of Canada.

The detailed statsment of assets and liabilities, must be most gratifying, not only to the shareholders, but also to the depositors of this bank. It indicates the stmost security and gives evidence of a progressive policy combined with spiendid business judgment.

Among the shareholders present at

combined with splendid business judgment.

Among the shareholders present at the annual meeting, was Frank Ford.

K.C., of Edmonton.

This bank has three branches in Momonton, the principal one being at the cerner of McDeugall and Jasper ave., one in the west end. and one in South Edmenton.

GERMANS LOOK

Organization Formed in New York With Object to Set up Republic in Germany

New York, May 28.—Germans here have formed an organization called the 'Friends of the German Republic' whose object is the dethronement of Emperer William and the establishment of a German rapublic, it was stated last night. The organization, said to be nation-wide in scope, has established headquarters and has issued an appeal to Germans to help in its propaganda.

The appeal says in part: 'Events and developments in Germany are clearly pointing to near upheaval similar to that which was witnessed in Russia some months ago Travellers recently arrived from Germany report rapid spreading of the republican movement. Things evidently are getting very uncomfortable for the German autocracy. The Russian leaven in working in Germany."
